OTIS TECHNOLOGY OFFERS RIPCORD® 3-GUN GIVEAWAY

Lyons Falls, NY: Otis Technology's Ripcord® 3-Gun Giveaway contest features a grand prize package of a Stag Arms Model 3G AR-15 rifle, FNH USA FNS™-9 Long Slide pistol and Beretta 1301 Comp shotgun—plus a complete set of Otis Ripcord one-pass cleaning tools.

The online contest begins April 8 and runs through June 30, 2015. To enter, go to www.otis3gun.com. A weekly prize consisting of a complete set of Otis Ripcords will be given out each Wednesday starting April 15. The final weekly prize will be awarded June 24. The grand prize winner will be selected July 6.

"This is an exciting opportunity to win a terrific trio of guns and the best one-pass gun cleaning tool for any type of firearm," said Len Nelson, vice president – sales and marketing for Otis Technology.

Ripcord is designed with advanced materials to clean residue and fouling from every kind of firearm in just one pass. It is engineered with a Memory-Flex® cable to run through a pistol, rifle or shotgun from Breech-to-Muzzle®, with no gravity feed necessary. A rigid, helix-shaped rubber core keeps the cleaning surface pressed against the bore, engaging the rifling for an aggressive 360-degree cleaning. The braided Nomex® surface can take up to 700°F heat. Ripcord can be used at any angle or orientation, making the cleaning process even easier.

Ripcord will be available soon in a new size for 12-gauge shotguns, and for the following calibers:

- Rifle: .22/.223/5.56mm, .243, .270/6.8mm, .308/7.62mm
- Pistol: .38/9mm, .40, .45

The [Stag Arms Model 3G AR15 rifle](#), [FNH USA FNS-9 Long Slide pistol](#) and [Beretta 1301 Comp shotgun](#) are specifically designed for competition shooting. To be eligible for the Ripcord 3-Gun Giveaway grand prize, entrants must be a legal resident of the United States and at least 21 years of age. Those who are legally disqualified from possessing a firearm are not eligible. Complete contest rules can be found on the contest website.

Otis Technology is known for manufacturing the most advanced gun cleaning systems available. The superior Breech-to-Muzzle design combined with unmatched quality has positioned Otis as the gun care system of choice with the U.S. Military. Otis Technology is **SMART GUN CARE**.
