

# OTIS™

## SMART GUN CARE

# EARSHIELD

OTIS ITEM #  
FG-ESH-26 | FG-ESH-31

## MORE EFFECTIVE THAN ELECTRONIC EAR MUFFS

### Inside the Technology

Soft earbuds form a seal around the outer ear canal and connect to the unique sound reduction chambers. Because sound energy travels the path of least resistance, high-intensity sounds,  like gunfire, funnel into the wider sound reduction chambers and away from your narrow ear canals. The chamber dampens, refracts and cancels harmful waves to produce a safe volume  across all frequencies. So, you can hear important safety signals or conversations without removing the Ear Shield.

### Three easy steps to superior hearing protection:

-   
1. Extend adjustable band until earbuds fit comfortably.
-   
2. Move chambers forward a quarter turn and back into position.
-   
3. Push both sides of the band together for a custom fit.

No stock interference as experienced with ear muffs.

Lightweight and collapsible. Adjustable to fit any shooter.
