

OTIS™ DEFENSE

I-MOD cleaning system

OTIS ITEM #
MFG-901-###*

The I-MOD cleaning system contains all the tools needed for proper Breech-to-Muzzle® cleaning – such as Memory-Flex® cables, bore brush, slotted tip, and patches. It features a Ripcord® for quick, one-pass cleaning. It also includes an all-purpose receiver brush and solid rod sections.

- Memory-Flex® cables and slotted tips for effective and correct Breech-to-Muzzle® cleaning
- Caliber specific bronze bore brushes remove deposits and other fouling
- Chamber brushes* and rods for proper cleaning of chamber
- Ripcords® for a quick, one-pass clean
- Double-ended AP brush for cleaning hard to reach areas

**Only available in 5.56mm & 7.62mm configurations*

Available in a variety of configurations, choose the I-MOD that fits your mission:
